PSS

**SINGLE DISC TRAILED
FERTILIZER SPREADERS**

SEGUÉS, Fertilizer spreader specialists for 40 years

The SEGUÉS PSS fertilizer distributors are equipped with a polyethylene hopper and the drive is 100% mechanic. With the only movement of the wheel when advancing and clutch for travel, makes them perfect to be dragged by any vehicle (car, tractor, quad, etc) and on any surface, both lawns, as pasture, fields, etc ...

KEY STRENGTHS:

- Centrifugal disk distribution
- 100% adjustable distribution system
- Manual dosing regulation system simple and intuitive
- Mechanical disk unit by means of transmission located on the wheel.
- Regulation of the disc area where the fertilizer falls
- Optional special systems for salt

Model	Load	Hopper	Width	Length	High	Weight	Power
PSS-500	400 kg	380 l	1.960 mm	1.510 mm	1.580 mm	140 kg	10 cv

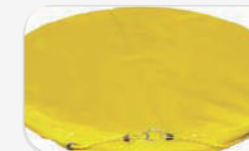

SERIAL EQUIPMENT:
