MAQUINARIA AGRICOLA SEGUÉS at the farmer's side since 1978.  
The cleaners are suitable machines to separate nuts quickly and accurately from impurities such as dirt, stones, leaves, pieces of wood, empty shells....

STRENGTH POINT

- The S98 models are cleaning machines suitable for fruits that are harvested using self-propelled machines and / or by aspiration.
- System composed of a motorized suction fan mounted on the upper part of the machine that facilitates the separation of the leaves and / or other similar materials from the nuts.
- Different models adapted to each production and is associated with the percentage of impurities.
